GOULDS'
GLADIOLUS & DAHLIA
GARDENS

NORTH LIMA, : OHIO

Location :

Gardens just West of Reformed Church, on East Lewistown-Salem road. (Eleven miles South of Youngstown, Ohio).

TO OUR CUSTOMERS

We cordially greet you at the beginning of another Season, and thank you for your liberal patronage during the past.

If this is the first list you have received from us, we shall be pleased to have a trial order from you, to our mutual advantage.

Will you please give us the names of your friends who grow flowers in their gardens? If you will do so, we will place some extras in with your order.

GUARANTEE

We guarantee all stock to be true to name, and in good growing condition.

ORDER EARLY

Early orders prevent disappointment. Some varieties are always sold out early and we can't tell beforehand which they are going to be.

If you do not want to pay in full for your order early in the season, send a deposit of 25% with your order and we will hold it until Apr. 15, if Gladiolus. If Dahlias, until May 1. The above applies not only to mail orders, but orders take at our Gardens, at Fairs and other Exhibitions. Make all checks, drafts or money orders payable to Goulds' Gladiolus and Dahlia Gardens.

TIME OF SHIPMENT OR DELIVERY

Gladiolus during March and April. Dahlias, April 10th to May 1st. Peonies, September, October and Early Spring. Irises, July, August, September and Early Spring.

All orders, at prices given in in this list are delivered by us or sent by Parcel Post, **Prepaid**.

WHOLESALE BUYERS.

We have many more large bulbs than ever before.

Watch for our advertisement in *Florists' Review*.

CORRECTIONS.

Our Price Lists are made up in Aug. so we can have them for the shows and fairs. In looking over the growers' lists put out in Dec., for the winter trade, we find that our prices are too high on some of the newer varieties. Hence this list of corrections.

If you have already ordered some from us at the old prices, let us know and we will make it up to you by putting in extra bulbs.

Goulds' Gladiolus & Dahlia Gardens
NORTH LIMA, OHIO

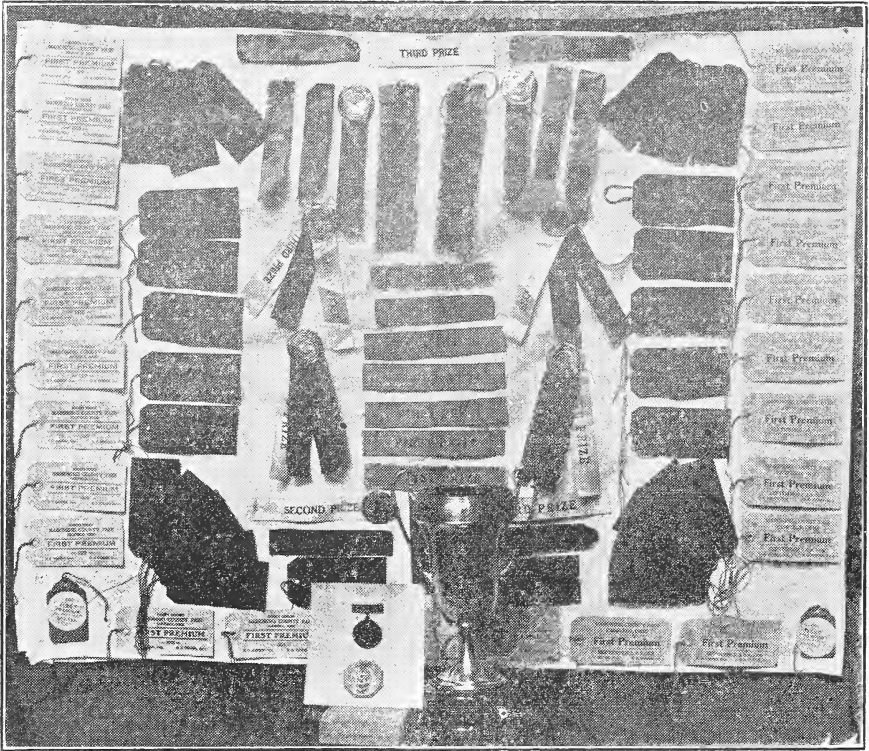

AWARDS

We have been modest and not mentioned awards before in our Price Lists.

In this we are showing you a picture of the ribbons, medals and cup awarded our Gladiolus and Dahlias during the last four years.

At Ohio State Gladiolus Show, Youngstown, Ohio, 1929, Goulds' Gladiolus were awarded the Ohio State Gladiolus Society Cup for winning the most points in Commercial Class, and were also awarded the Charles E. F. Gersdorff Bronze Championship Medal for winning the greatest number of first prizes in Commercial Class.

At Mahoning Gladiolus Society Show, Youngstown, Ohio, 1928, awarded the A. G. S. Silver Medal for Second sweepstakes, in Commercial Class.

Ribbons, Cup and Medals awarded Goulds' Gladiolus and Dahlias, during the last four years.

SOME OF THE NEWER VARIETIES OF GLADIOLUS

- We have added some excellent varieties to our list among which are:
- Betty Nuthall** (Salbach, 1928) This is one of the most outstanding varieties of today. Height 4 ft. Florets 5 in. Color, clear coral with deeper throat lines. Perfect form and spike. Good propagator.
- Rita Beck** (Fischer, 1926) Height 3 ft. or more. 5 in. florets. Pure shell pink with scarlet lines on lower petals. 6 to 8 blooms open at once.
- Minuet** (Coleman, 1925) Minuet is the standard by which all other lavenders are judged. Clear, light lavender with 4 to 6 large flowers open.
- Marmora** (Errey, 1927) Height, 4 ft. Florets 5 in. with as many as 8 to 10 open florets at a time. Color, rich smoky lavender with pale purplish blotch. A wonderful exhibition variety from Australia.
- Pfitzer's Triumph** (Pfitzer, 1925) A European variety. 3 ft. or more in height with florets measuring 5 to 5½ in. Color, bright salmon-orange. One of the most popular glads of today.
- Rose Mist** (Fischer, 1924) This is a *Primulinus Grandi florus*. (Large flowering prim.) One of the finest and most popular. Color, rose-red with buff line around the petals. 5 to 6 florets open on tall spike.
- Golden Frills** (Kunderd, 1925) Prim. Tall, heavily ruffled. Very deep yellow. Small flame-cerise feather in the throat. Very artistic and beautiful.
- Mahoning** (Gould, 1928) and **Mahoning Gem** (Gould, 1928) were some of the winners at the Ohio State Gladiolus Show at Youngstown 1929. Mahoning won first in smoky shades. Both were winners in special classes.

WHOLESALE AND RETAIL

This year we are giving our patrons the advantage of buying at a considerable reduction, if FIVE or MORE bulbs of ONE VARIETY and SIZE are bought. This list quotes the prices on most of the smaller sizes and bulblets in small quantities. A package of bulblets contains from 15 bulblets up according to the price of the variety. 5 bulbs are sold at ½ price of 10, 25 at ¼ price of 100, 50 at at ½ 100 rate.

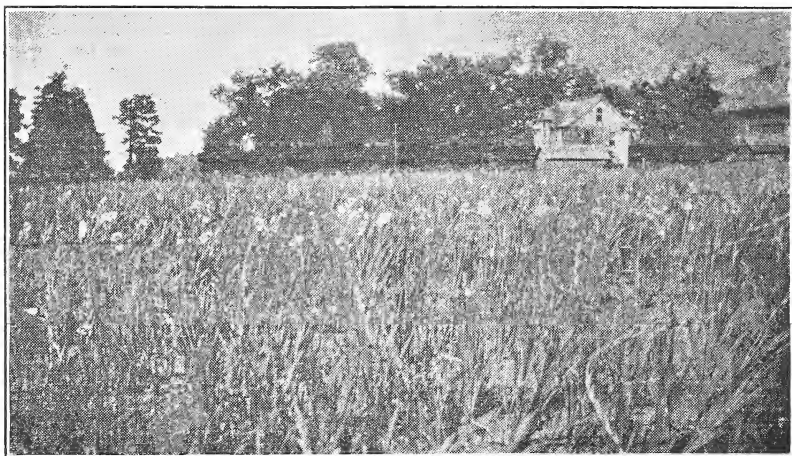

TABLE OF STANDARD SIZES

1½ in. up	1¼ in to 1½	1 in. to 1¼	¾ in. to 1	½ in. to ¾	½ in. & less	Bulblets
No. 1	No. 2	No. 3	No. 4	No. 5	No. 6	

Some varieties we have not offered the bulblets and smaller sizes, because the larger size bulbs of these varieties are sold so cheaply it would not pay you to grow the small bulbs and wait for your flowers.

ABBREVIATIONS

Prim. for *Primulinus*. P. G. *Primulinus Grandi florus*. For Originators, (H.) Hornberg, (K.) Kunderd, (D.) Deiner, (Kel.) Kelway, (C.) Coleman, (Pr.) Prestgard (Z.) Zeestraten.

One of our 1929 fields of Gladiolus. House and barn in right background.

One of our 1929 Dahlia fields.

Why is your garden? To some folks a garden means pleasure; to others it spells just work. To our customers it means hours of joy, days of real sport, with a new thrill each morning.

DAHLIAS

The American Dahlia Society has made a new classification of the Dahlias. The principal changes effect the Cactus and Decorative types. The word Hybrid has been eliminated.

In the Cactus types there are :

INCURVED CACTUS DAHLIAS. Fully double with the margins of the majority of the floral rays revolute for one-half or more of their length. The floral rays curving toward the center of the flower. For example: F. W. Fellows, Ballet Girl.

RECURVED AND STRAIGHT CACTUS DAHLIAS. Fully double flowers with the margins of the majority of the floral rays revolute for one-half their length or more, the floral rays being recurved or straight. For example: Ambassador, Miraflores, Kalif.

SEMI-CACTUS DAHLIAS. Fully double with the margin of the majority of the floral rays revolute for less than one-half of their length. For example: Edna Ferber, Sunkiss, Elsie Daniels.

The Decoratives are classed as follows :

FORMAL DECORATIVE DAHLIAS. Fully double flowers, floral rays generally broad, either pointed or rounded at tips, with outer floral rays tending to recurve and central floral rays tending to be cupped. All floral rays in a somewhat regular arrangement. For example: Sagamore, Jersey's Beauty, Mrs. I. de Ver Warner.

INFORMAL DECORATIVE DAHLIAS. Fully double flowers, floral rays generally long, twisted or pointed and usually irregular in arrangement. For example: Ft. Monmouth, Jane Cowl, Barbara Redfern.

MINATURE DECORATIVE DAHLIAS. Fully double flowers, floral rays not revolute, conforming to the definitions for either the formal or or informal decorative types, and less than three inches in diameter. For example: Little Jewel.

The following abbreviations are used to signify types:

Col. Collarette, S. Single, P. Peony, I. C. Incurved Cactus, R. C. Recurved and Straight Cactus, Semi-C. Semi-Cactus, F. D. Formal Decorative, I. D. Informal Decorative, Min. D. Minature Decorative, B. Ball or Show, Pom. Pompon.

DAHLIAS--Continued

This list contains Exhibition Dahlias of merit, also some of the fine older varieties. Only tubers offered, no plants.

Adda Patterson R. C. Considered one of the best pure white of its type. Large flowers. long stem.....	\$1.50

Winsome—Real pink. Fine.	50

IRISES

"The flower of Culture and Refinement." Wonderful effects may be obtained by planting masses of Irises along walks, drives, shrub-borders, streams, pools and in rock-gardens. Plant Irises where other plants will not grow.

We have added several new varieties to our list. Our plants are large, many are double divisions.

Albicans--White25
Archeveque--Velvety purple35
Beethoven--Blue and purple25
Canariensis--Creamy yellow25
Dalila--White and plum35
Dorman--Reddish violet.....	.35
Fritjof--Lavender and purple.....	.25
Honorablis--Yellow and mahogany.....	.25
Ingeborg--Early white25
Johan De Witt--Light and dark violet.....	.25
Lent A. Williamson--Large, blue and purple.....	.35
Lohengrin--Cattleya rose.....	.35
Mithras--Yellow and red25
Mme. Chereau--White edged blue25
Madam Pacquette--Rosy claret.....	.25
Othello--Dark purple25
Pauline--Pansy-violet.....	.25
Pallida Dalmatica--Lavender-blue25
Rose Unique--Pink25
Rosalind--Rosy lavender.....	.25
Yvonne Pelletier--Light blue.....	.35

Irises per doz., at 8 times "each price", if of one variety. Not less than 6 at dozen rate.

PEONIES

HOW TO PLANT

Prepare your soil thoroughly. Plant in good mellow soil with the top of the buds or eyes from two to three inches below the surface level. This is important. Peonies planted too deep do not bloom. Peonies planted too shallow are apt to have the crown hurt by the winter, which causes them to die. For the first winter mound up the loose dirt over the hole about 4 in., just before winter sets in, and above this place a coarse mulch. Remove mulch and dirt in the spring.

EXTRA STRONG 3 TO 5 EYE DIVISIONS

Some of these bloomed this last May and June.

- Duchess de Nemour**—Sulphur-white. Fine cup-shaped bloom. Early.
Division .75
- Edulis Superba**—Early. A beautiful clear mauve-pink with silvery reflex.
June rose fragrance. Division .75
- Festiva Maxima**—This is the most all around popular white Peony. Extra large flower with center petals flecked with crimson. Division .75
- Francois Orteget**—Mid-season dark red. Division .75
- Marechal Valliant**—Rose type; late. Immense blooms of light red with shades of mauve. Division .75
- Meissonier**—Very brilliant crimson; full double flowers. Mid-season.
Division .75
- Monsieur Jules Elie**—Early mid-season. Immense globular, very full flowers. Color, glossy lilac-pink shading to deeper rose at base. One of the largest flowered Peonies. Division .75

“There’s more to your garden than digging in the dirt!”

AN INVITATION

During the blooming seasons of the Gladiolus, Dahlias, Irises and Peonies, we welcome visitors to our gardens. This is an annual and standing invitation to come and see what we have.
